After 15-20 minutes, the group moved to the next table, developing another question from a different category.

After three planned rounds, we organized the fourth rotation, thanks to which all participants took part in the conversation on 4 out of 5 topics. Each group was multinational, consisting of students of High School no 2 in Starachowice and guests from Portugal, Italy, Spain, Greece and the Netherlands. Thanks to this, it was possible to talk in English for students of High School no 2 and a substitute for intercultural conversation. Thanks to these discussions, many participants noticed how much they have in common with colleagues from other European countries, despite the differences between nations.
